## REPURCHASE OF SHARES

The board utilised authorisation within AB Fagerhult to repurchase own shares to hedge the company's long term incentive program. 17 September 2007 the company repurchased 100 000 shares at a price of SEK 148 kr, which represent 0,8 % of the outstanding amount of shares. The total number of shares within the company amounts to 270 000 shares.

At the Annual General Meeting in AB Fagerhult on 23 April 2007 the Board of Directors authorisation to decide on repurchase of the company's shares was extended. The Board will have the opportunity until next Annual General Meeting to decide on repurchase of the company's shares up to 10 % of the total shares outstanding.
